

EL8000-UAC

Edgeline UPS Accessory Case

Technical Datasheet

Integrated 6U Cases with
UPS and Drawer

Overview

The ultimate in small form factor Uninterruptable Power protection for the HPE Edgeline EL8000 Converged Edge Server System and related mission critical components.

Online Double Conversion technology, providing the ultimate protection against the most problematic power source by isolating the load equipment from the utility power. The Double Online Conversion topology is the best for mission-critical applications, delivering a pure sine wave and zero transfer time.

Storage problems on-site? No more with the integrated 2U 18" sliding drawer. Suitable for small IT devices, cabling and related items.

Taking the Edgeline EL8000 into extreme environmental and operational conditions is now possible, a viable solution for Military, Federal, and Commercial sectors.

The EL8000-MSC from Ultralife was custom designed to support the Edgeline EL8000 Converged Server System and enables edge computing in the most austere environments and locations.

Features

- 2000VA/1800W Online Double Conversion UPS
- 2U Accessory Drawer, 18" deep
- 9.5" Half Rack Mount aluminum case
- Designed for HPE Edgeline EL8000 Converged Servers
- Protection class IP 65 through seam-welded housing and lid with peripheral seal
- Shock and vibration dampened

Technical Specifications

HPE Case Part No. / Color	R4D12A - Ultralife EL8000-MCS-T / Tan R6Q36A - Ultralife EL8000-MCS-G / Gray R6Q37A - Ultralife EL8000-MCS-Z / Clear Coat Zinc
HPE UPS Part No.	R7S06A
HPE Drawer Part No.	TBD
Size H x W X L (inches)	14 x 16.75 x 27 (6 Rack Units)
Weight	~85lbs. fully integrated weight
Temperature Range UPS	0 to +40°C, 10% output de-rated at +40°C to +45°C
Finish	Paint - RAL-STD Clear anodized Stenciling and silk screening available
General	Integrated wheels and tow handle High strength to weight ratio 100% Recyclable
